August 7, 2026

To the LexArts Grants Committee:

I excitedly offer my support to Lexington Ballet and their application for funding from LexArts. It was a joy to collaborate with Lexington Ballet during their 2025-2026 season, first as the featured vocalist for the organization's opening performance of the season at Castle & Key Distillery, and later through the creation of a music video for my song "Doe Eyed Beauty" which premiered at The Kentucky Theatre for Lexington Ballet's *Choreography ON Camera* performance. All of my collaborations with the organization have been incredibly rewarding and have demonstrated the creative possibilities that emerge when artists from different disciplines come together. Lexington Ballet has approached each collaboration with professionalism, creativity, and a genuine enthusiasm for finding ways to connect dance and music with audiences.

I am especially excited to continue this partnership through the organization's 2026-2027 and 2027-2028 seasons. In Fall 2027, we will be collaborating on a large-scale performance at the Lexington Opera House featuring myself, my band, and Lexington Ballet in a dynamic fusion of live music and dance. I am thrilled by the opportunity to bring this ambitious project to Lexington audiences and continue building upon the creative partnership we have established. I have been so impressed by Lexington Ballet's openness to collaboration and commitment to creating exciting artistic experiences. I look forward to seeing our future creations.

Sincerely,

Bee Taylor
