

Art Lab Installations for LCM Proposed Budget

Expense	Cost
Paint and other materials to demarcate the end of the room where installations will be displayed.	\$250.00
Supplies for creating and mounting each piece.	\$2,250.00
Total Cost	\$2,500.00

We plan to use materials we already have on hand, to secure in-kind donations from local businesses and individuals as each project takes shape (e.g., we already have sources for fabric, old books, cardboard, and more), and to partner with organizations like the Center for Creative Reuse.

This approach will help us maximize our budget so that we will have approximately \$375-\$565 to spend on each installation (depending on whether we execute 4 or 6 of them over the course of the year).
